

VDP-U-MD24080AN-21-P

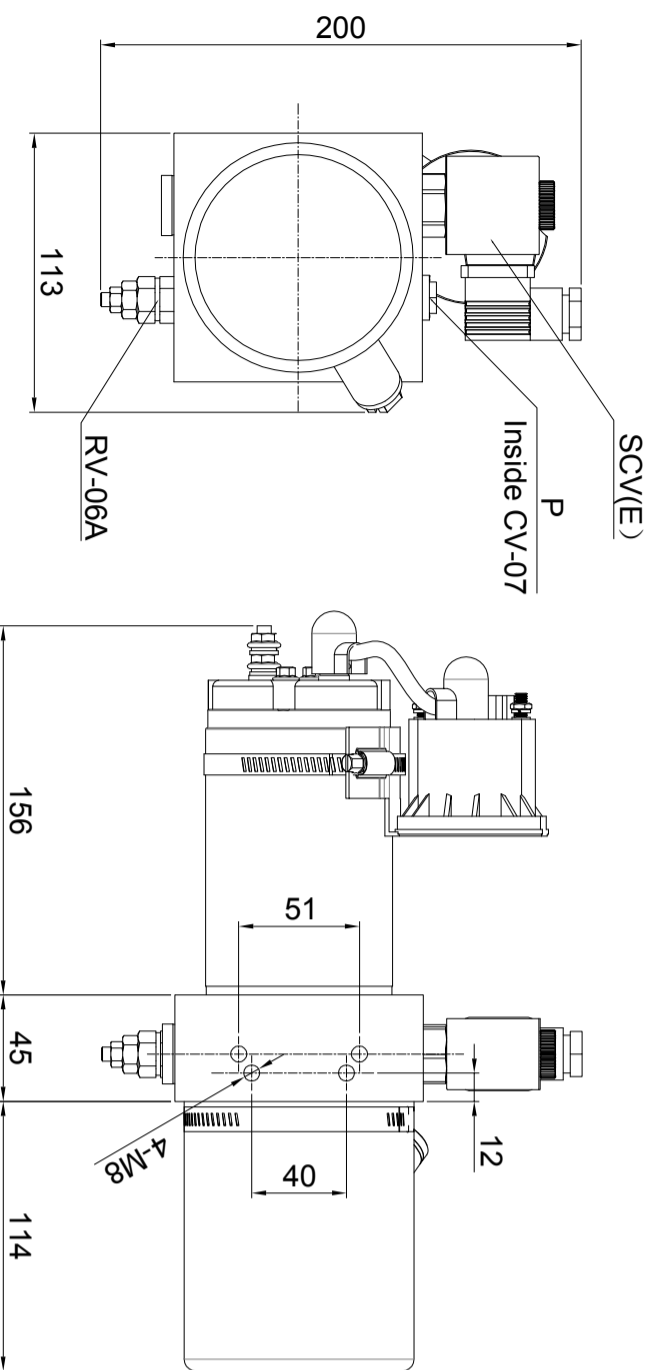

The product mainly provides lifting function for AGV, equipped with self-developed 24V 0.8kW high performance DC motor, 0.8L plastic tank, CBU gear pump, quantitative pressure compensating throttle valve, smooth ascending and descending. While satisfying the lifting function, the size of the power unit is minimized, which is especially suitable for product like AGV that require the size of parts.
